IDC® POWERHARNESS ON THE INSIDE

JULIUS-K9®

www.julius-k9.co.nz

- 1 This keeps the side bag attachment stable.
- 2 Rubber strap, certified by OEKO-TEX®.
- 3 You can stop your dog safely using the handle, which is made from high-strength, 50 mm wide, ribbing material designed for safety and durability.
- 4 The stainless steel ring is durable, designed to cope with all kinds of weight-bearing situations.
- 5 The rubber strap covers the handle and the ring.
- 6 The snap-on mechanism allows you to fix the ring, the handle or both of them, depending on your needs.
- 7 A comfort-enhancing, water-repellent shield provides protection on rainy adventures.
- 8 A flexible plate has been placed on the harness, to enable the snap-on mechanism to operate safely and easily.
- 9 The elastic lining ensures that the strap fits closely to your dog's body, providing maximum comfort.
- 10 The luxurious and durable carpeted fabric layer ensures that the harness will maintain its shape and appearance for years.
- 11 The comfortable, soft and breathable lining ensures that all dogs love this harness.
- 12 The reflective edging means that your dog is visible in the dark.
- 13 This prevents twisting or excessive stretching of the product, ensuring that the original shape of your harness is maintained.
- 14 The safety belt type strap, certified by OEKO-TEX®, ensures maximal durability.
